

# RITE NOW @ ROP

---

In an effort to provide our students with opportunities to engage in pro-social interactions with leaders in our community and break down barriers that may exist with law enforcement, Canyon State Academy Jr. Rams and students went on a field trip to tour the Maricopa County Sheriff's Law Enforcement Center in Queen Creek. After the field trip, CSA hosted the Sheriff's Office on our "home court" for a mini (best 3 out of 5) Nukem tournament and basketball game.

It was a great afternoon for students, staff and the deputies who competed side-by-side with one another and enjoyed each other's company with some refreshments afterward.

One student stated that playing on the same team with the deputies was not what he had expected and made him think about police officers in a different way. This event is one of many offered on CSA's campus that provide opportunities for youth to engage with civic leaders in our community.
