

# RITE NOW @ ROP

---

The past week was Student Development Week at Canyon State Academy. On Tuesday morning the AZ Cardinals and State Farm came together and hosted a Kids Camp for over 200 students at CSA and DLA. The students participated in a group warm up with Cardinals Alumni, completed five stations of football drills on the field led by State Farm employees and finished the event with food from Raising Cane's and a motivational pep talk from Cardinals Alumni.

The students were amazing! They were enthusiastic the entire morning, working their hardest and participating in every opportunity. We are forever grateful for the AZ Cardinals and State Farm and their continued partnership with our campus. They truly are part of our village in helping us improve the lives of youth. This camp was held in addition to the grant we received in which they replaced the grass on the field, repaired irrigation and created and installed a new scoreboard.

We send additional thanks to State Farm for the 25 employees that came and spent the morning setting up, actively participating in the drills with our students, helping building memories and helping to tear the event down.

The smiles on our students faces and the laughter on the field was a great way to start Student Development Week.
